ASSA ABLOY is the global leader in door opening solutions

Since its formation in 1994, ASSA ABLOY has grown rapidly over the last 20 years, from a regional company to an international Group with around 44,000 employees.

ASSA ABLOY is represented on both mature and emerging markets worldwide with leading positions in Europe, North America and Asia Pacific.

ASSA ABLOY’s leading market presence in the Asia Pacific region is based on the industry’s largest and most valuable brand portfolio.

ASSA ABLOY recently acquired major stake in ENOX Hardware India Private Limited, a privately owned company with deep rooted family values.

ENOX in brief
ENOX as a brand is extensively used in mid level markets across all sectors of the industry like Hospitality, Commercial, Residential, Infrastructure and Healthcare. ENOX Hardware has a diversified product portfolio ranging from door controls’ hardware to aluminum profiles to furniture fittings but our major business churning products are Glass Architectural Hardware and Glass Sliding Solutions. With the continuous support of and untiring efforts of our in-house product management team, we’ve developed an entire range of sliding systems be it manual or automatic, wood or glass.

ENOX in India, started its journey from selling door hardware in 2007 and now has successfully managed to grow exponentially with about 225 employees.

Mission Statement
Superior customer service, Quality and Commitment with Profitable Growth

Vision
-To be India’s leading consumer company for Glass Hardware and Sliding Solutions
-To be the company that best understands and satisfies the product, service and self-fulfillment needs of our customers.
-To offer a pleasant working environment to our employees.

Whenever doors of high quality, unique design and a maximum of functionality are planned, the system SWIFT for sliding and pivoting doors provides an optimal solution.

The combination of elegant stainless steel with extensive glass panels gives the best precondition for bringing out design features.

Besides the optical effect a remarkable feature of SWIFT are the standardised sets which allow an easy and quick planning of the common types of assemblies with 10 or 12mm toughened glass.

The SWIFT fittings offer great flexibility in the positioning and connecting of glass sheets to each other, or the floor, ceiling, walls - wherever you want. Building tolerances can be compensated for by means of a variety of adjustment options.

- Interior Glass Partitions
- Interior Office Partitions with multitude of panel inserts, Glass, MDF, Lamination, Plywood, Gypsum etc.
- Shop Fronts with maximum visibility and security
- Fixed Windows
- Partitions that need relocation and frequent assembly and dismantling

Advantages
- Simple & faster fabrication and glass installation. Ideal for 8, 10 or 12 mm glass thickness.
- Superior holding power to structure and for glass.
- No shifting or falling out of position. Maintenance free mechanism.
- Easy installation & remounting as no glue or silicon required.
- Easier glass replacement.
- Cost effective, time & labour saving by easy installation & faster completion of projects.
- Slim & attractive design, low visual impact, space saving.
- Deep cavity in profile and uniform grip all along the 8 edges of glass provides outstanding structural stability.
- Exterior removal of gasket / glass made impossible due to contoured EPDM gasket held under pressure.
- Better shock absorption.

EFS 3080 - Product description

Dimensions: 250 / 110 / 50 mm
Closing speed: adjustable 120° to 15°
Latching speed: adjustable 15° to 15°
Opening angle: 120°
Hold-open as option, 90°

Precautions:
- At completion of erection, the door closing speed can be adjusted by regulating screw: left turning for high speed and right turning for low speed.
- After the front, rear, left and right position of floor spring, fasten the floor spring, otherwise floor spring may shake during use.
- During speed regulation, do not push or pull the door by force to avoid damage of door or floor spring.
